# COMPACTA 6000

# COMPACT 600

The Compacta system is designed to offer an affordable solution where a relatively strong, yet light interior divider is specified. It is an excellent alternative solution where traditional shutters are deemed too bulky, impracticable or expensive. The compact divider is supplied as a made to measure product. An optional installation service is available.

Headrail/hinge system avoids any need for a floor track.  
Please note this image shows optional pelmet fitted.

- Custom made to fit recess.
- Cost effective horizontal shutter.
- Proven in commercial use.
- Easier access for wheelchair users.
- Durable and moisture resistant.
- Integral magnetic catch supplied.
- Lock option available.
- Requires no floor track.
- Easy to clean.
- Light & smooth operation.

# COMPACT 600

---

## PRODUCT FEATURES:

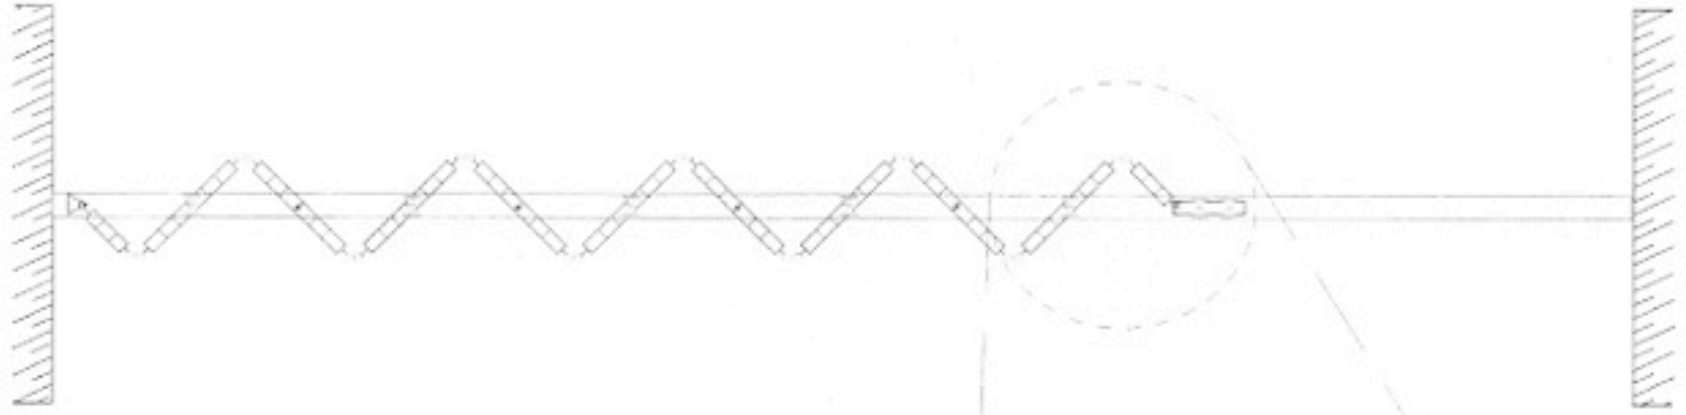

Suitable for recesses from 650mm to 10m+

Fits easily into an existing opening or 'knock through'

No floor track required - ensuring ultra-smooth operation.

Tough washable panels - ideal for commercial and domestic use.

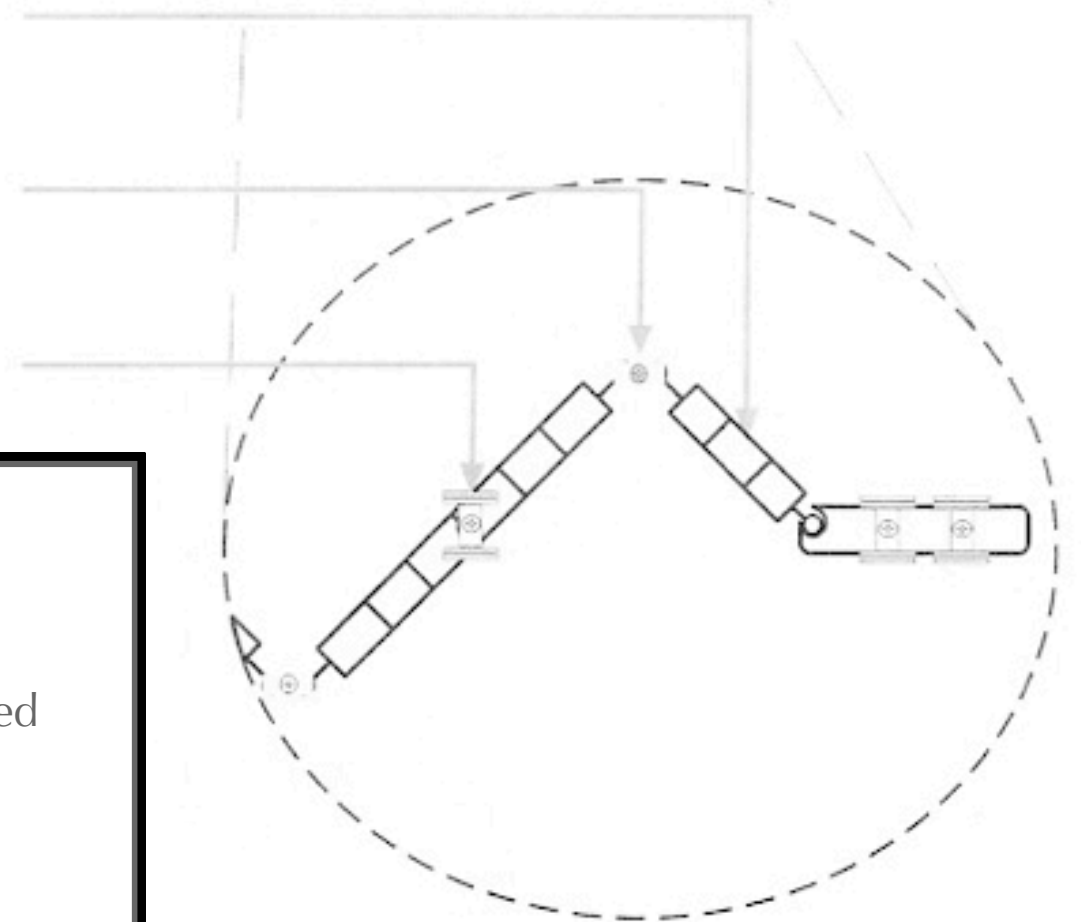

Ideal for wheelchair use.

Extruded PVC panels are of a double-skinned honeycomb construction.

Compact 600 hinges are formed from a solid PVC extrusion, ensuring added durability.

Panels are suspended by means of articulating twin-wheel carriers with grooved wheels to bronze shank connected to the panel.

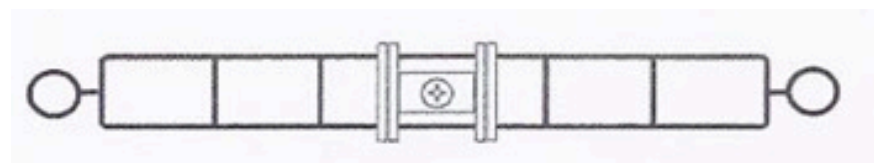

## SPECIFICATIONS:
